To All Concerned;

This is not a new sign per se. The structure/stand has been in place since 1967. The 50+ year old insert sign had single letters which needed to be changed outside by removing the glass on both sides and placing new letters and then closing again. The sign was also dilapidated after years of being in the weather. We want to replace this sign with a modern electronic sign with WIFI so the letters can be easily changed inside the church. Our congregation also feels this is a vital tool needed to continue to keep our doors open.

Regards,

Barry Landowski
