Attachment A

s. 510-202 2931 Union Street Planned Development District

- A. Purpose.** The 2931 Union Street planned development district was established in 2021 under the Village's zoning regulations as an adaptive reuse project. The subject property includes a building used as a church and parochial school. The district is intended to allow the reuse of the church-school building as set forth in this section.
- B. Permissible development.** The portion of the church/school building that is currently used for church activities may continue for such use. That portion of the church/school building that was previously used for a parochial school (main floor and second floor only) may be used for general office purposes. Onsite parking for uses permitted in the church/school building is not required.
- C. Development standards.** The existing church/school building may not be enlarged in any manner.
- D. Effect of approved general development plan.** The approved general development plan for this project sets forth the location of the district and the overall design parameters for the project and shall be kept on file with the Village of East Troy as a permanent record and through this specific reference is incorporated herein, along with any conditions of approval.
- E. Final development plan required.** Development of the subject property may only proceed when the property owner submits a final development plan as described in Article XII and obtains all necessary approvals as required, including applicable building permits.
- F. Division of land restricted.** The subject property may not be subdivided by any means. Further, the configuration of the subject property shall not hereafter be modified by any means without the approval of the Village Board upon recommendation of the Plan Commission.
- G. Revisions to the zoning map.** Prior to enactment of this section, the subject property was zoned TR-8. Upon adoption of this section, the subject property shall be designated as a planned development district with reference to this section. Hereafter, the subject property is subject to this section and other sections of this code as applicable.
- H. Termination.** If the Village has not approved a final development plan by July 31, 2022, the zoning implemented by this section shall lapse and the zoning for the subject property shall automatically revert to the previous classification. Furthermore, if work does not commence to accommodate the alternative uses as set forth in an approved final development plan by September 30, 2022, and continue in good faith to completion, the zoning implemented by this section shall lapse and the zoning for the subject property shall automatically revert to the previous classification.
