INSTRUCTIONS

- A. This application must be accompanied by two complete sets of plans showing the design of the proposed structure and details. Where all details are not clearly shown on the plans, two complete sets of specifications must also be provided. If the proposal is for a new residential, business or industrial structure, or a major expansion of such an existing structure, the plans must have been prepared and/or approved by an Architect or Professional Engineer licensed to practice in New York State.
- B. A site plan must be provided to show lot dimensions and the location of the proposed structure on the lot. For new residential, business or industrial buildings a site plan approved by the Parma Planning Board must be presented.
- C. If the project involves sewage or other waste disposal, a site plan or subdivision map approved by the Monroe County Health Department must be presented.
- D. Upon issuance of a permit, it shall be conspicuously posted on the property and shall remain posted until construction is completed and approved.
- E. It is the responsibility of the applicant to call for required inspections, but during the construction period the property is subject to inspection at any time during normal working hours by Town Code Enforcement Officials or their designated agents.
- F. Applicants must furnish certificates of liability and compensation insurance or complete a form indicating no insurance is required.
